

I live in a small town and therefore do not have as much access to radio stations as larger cities. I listen to K-LOVE all the time, both at home and in my car. It is wonderful to have a station here in our town but even more important is that it is a Christian station. In this day and time of moral decay you cannot emphasize enough the importance of having this kind of influence in your midst. As we do not have access to many radio stations, I feel there could not be a better choice than K-LOVE. It has helped many, many people and will continue to do so.
